

WMHS

A WEEK OF BOOT CAMP IN THE ID LAB

Are you interested in 3D printing, Robotics, or Circuits? Now is your opportunity to learn more!

Aug 12-16 8:45am—3:15pm

WMS Students entering 5th-8th grade

Students will step into the Innovation & Design Lab, with Bryce Aktepy, for a week of STEM. Each student will receive an introduction to the equipment and materials in the WMS ID Lab and learn how to operate each one safely. Students will have the opportunity to expand their knowledge of 3D printing, Robotics, Circuits, and much more, including a collaborative group project.
